POST EVENT REPORT

About the Event – IMME 2022

The mining industry in India is one of the core industries, which serves as the primary input materials provider for many core sectors. The significance of mining in a nation like ours could be attributed to our high dependence on thermal energy, about 72% of energy requirement in the country is fulfilled through thermal power generation. Geographically India is endowed with a vast variety of resources ranging across metallic, non-metallic, fuel and atomic minerals and has great exploration potential.

Currently, India stands tall as the world's second-largest coal and steel producer. It is also the 5th largest nation in terms of existing coal deposits. India is home to 1,531 operating mines and produces 95 minerals, which include 4 fuels, 10 metallic, 23 non-metallic, 3 atomic and 55 minor minerals. In FY 2021-22, coal production in India stood at 777.31 MT (provisional) with a growth of 8.55%. In FY22, mineral production is estimated at Rs.190,392 crore (US\$ 24.95 billion). However, India has underutilized mineral production capacity owing to the substantial mineral imports into the country.

Under the National Mineral Policy 2019 (NMP), the government envisages an effective, meaningful, and implementable policy to bring further transparency, better regulation & enforcement, balanced social and economic growth as well as sustainable mining practices. The NMP 2019 focuses on the Government's Make in India initiative and gender sensitivity in terms of its vision.

Against this backdrop, CII is organizing the 16th edition of the two-day Global Mining Summit & four-day long International Mining Machinery at Kolkata, 16-19 November 2022. The GMS is a signature event of the CII and is aimed at highlighting the growth and emerging trends in the Indian mining sector. The theme for this year's Global Mining Summit is "Role of Minerals in Shaping a Sustainable Future".

Left to Right : Mr Saikat Roy Chowdhury, Regional Director, CII; Mr Vivek Bhatia, Chairman, CII Mining and Construction Equipment Division & Managing Director and CEO, thyssenkrupp industries India; Mr Shiv Siddhant Narayan Kaul, Deputy Chairman, CII Eastern Region and Managing Director, NICO Engineering Services Ltd; Mr Sumit Deb, Chairman, NMDC Ltd; Mr Pramod Agrawal, Chairman, Coal India Ltd; Mr Sunil Duggal, Chairman, CII National Committee on Mining and Group CEO, Vedanta Ltd; Mr Amit Banerjee, Chairman & Managing Director, BEML Limited; Ms Catherine Gallagher, Minister Commercial - South Asia and Head Austrade – South Asia; Mr Arvind Garg, Past President, ICEMA

CII in partnership with Ministry of Mines and Coal biennially organises its flagship event in the Mining sector called Global Mining Summit (GMS) and International Mining Machinery Exhibition (IMME).

Over the years, the Summit has seen participation from major geographies like Australia, Canada, Poland, Czech Republic, Germany, Italy, UK, Indonesia, Russia, etc.

The event attracted global mining majors which will showcase the latest technologies for the sector and provide an ideal platform for collaborations, technology transfer and networking opportunities with key international players in the sector. The event attracted more than 224 exhibitors from across the globe and 10,000+ business visitors.

The 16th edition of GMS and IMME was held from 16th - 19th November 2022. GMS was scheduled from 16th - 17th November at Eco Park, Rajarhat, Kolkata, India.

The Global Mining Summit 2022:

Role of Minerals in Shaping a Sustainable Future aims to highlight the growth and emerging trends in the Indian mining sector. It will focus on the high-priority aspects of the mining business including exploration, ease of doing business, new technology, policy frameworks for sustainable mining, emerging opportunities in critical mineral & rare earth space and urban mining. Major players from the mining, coal, iron ore and other mineral sectors globally, and within India, will use this forum for the exchange of views & ideas and explore business partnerships.

Mr Vivek Bharadwaj, Secretary, Ministry of Mines, Govt of India and Mr Pramod Agrawal IAS, Chairman, Coal India Limited addressed the inaugural session. In addition to the conference, exclusive Buyer-Seller meet and B2B meetings were also being organized to explore business opportunities.

Key Highlights

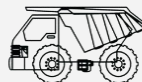

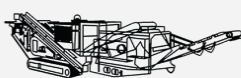

- 4 Days of International Exhibition
- 2 Days of Global Mining Summit
- 242 Exhibitors
- 5 Country Pavilions - Australia, Canada, Germany, Northern Ireland and United Kingdom. Other International Participation from Iran, Poland, Sri Lanka and Turkey
- 50,000 sq.mtrs of Exhibition Display Area
- 10,000+ Business Visitors
- 9 Sessions, 60 + Speakers and 700+ Delegates
- 300+ B2B Meetings
- Buyer Seller Meet

Seminars / Conferences – IMME 2022

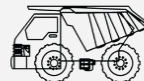

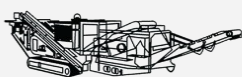

- Mining: Ease of doing business and a Sunrise future
- Securing Strategic Minerals to build an AatmaNirbhar Bharat
State Session: Ease of Doing Business

Session with user industries of new age minerals like EVs, Solar PV manufacturers that use minerals & metals like copper and aluminium in big quantities focusing on their requirements, demand etc.

- Responsible mining – how mining companies work towards a low carbon future
- Technology & Automation: How India can lead the way
- Digital Mining: Transforming the Mining value chain
- Developing a cost-effective and efficient ecosystem for Mineral Logistics & Trade

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Inclusiveness, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
