IMME 2024

India's largest mining exhibition, the International Mining and Machinery Exhibition 2024 (IMME), brought together over 116 international participants from 27 countries. The four-day exhibition, held from October 23 to 26, attracted 4,967 business visitors and facilitated 574 B2B meetings, spanning multiple sectors in the mining industry. The 17th edition of IMME and the Global Mining Summit (GMS) was inaugurated by Sri Moloy Ghatak, Minister-in-Charge, Law Department, Government of West Bengal. Senior officials from the government and the Indian Army were also present.

Exhibitors from countries including the UK, US, Russia, China, and Australia showcased innovations across 55,000 square meters, covering more than 270 exhibitors. The event highlighted key sectors such as mining, equipment and technology, mining and minerals, mineral processing, and manufacturing.

Organized by the Confederation of Indian Industry (CII) in collaboration with the Ministry of Mines and the Ministry of Steel, IMME 2024 and GMS 2024 received support from the Government of Odisha as Partner State and the West Bengal Mineral Development Corporation. The Indian Construction Equipment Manufacturers' Association (ICEMA) participated as the Sector Partner, while Australia was the Partner Country. Since its launch in 1984, IMME has played a vital role in advancing India's mining industry, promoting technology adoption, and encouraging business growth. Through 16 successful editions, it has become a central platform for industry leaders, facilitating knowledge exchange, industry insights, and partnerships.

This year, IMME 2024 and GMS 2024 provided an ideal stage for showcasing technological advancements, fostering partnerships, and exploring new business opportunities. Together, industry professionals, policymakers, manufacturers, and service providers created valuable connections that will drive the mining sector forward.

Global Mining Summit 2024

Global Mining Summit 2024: The 17th edition of the Global Mining Summit (GMS) and International Mining Machinery Exhibition (IMME), the flagship event of CII in the mining sector, took place from 23rd October 2024 to 26th October 2024. GMS was held from 23rd to 24th October, while IMME continued until 26th October 2024 at the Science City Exhibition Ground in Kolkata, India. Over the years, the Summit has drawn participation from major geographies including Australia, Canada, Poland, the Czech Republic, Germany, Italy, the UK, Indonesia, and Russia. This event attracted global mining majors who showcased the latest technologies for the sector, providing an ideal platform for collaborations, technology transfers, and networking opportunities with key international players in the industry. The event featured over 400 exhibitors from around the globe and welcomed more than 10,000 business visitors.

The theme for this year's GMS was "Viksit Bharat - Role of a Sustainable Mining Industry." In alignment with the theme, the summit aimed to highlight growth and emerging trends in the Indian mining sector, focusing on high-priority aspects of the mining business, including exploration, ease of doing business, new technology, policy frameworks for sustainable mining, and emerging opportunities in critical minerals, rare earths, and urban mining. Major players from the mining, coal, iron ore, and other mineral sectors, both globally and within India, utilized this forum to exchange views, share ideas, and explore business partnerships.

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 365,000 enterprises from 294 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness, and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Through its dedicated Centres of Excellence and Industry competitiveness initiatives, promotion of innovation and technology adoption, and partnerships for sustainability, CII plays a transformative part in shaping the future of the nation. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

For 2024-25, CII has identified "Globally Competitive India: Partnerships for Sustainable and Inclusive Growth" as its Theme, prioritizing 5 key pillars. During the year, it would align its initiatives and activities to facilitate strategic actions for driving India's global competitiveness and growth through a robust and resilient Indian industry.

With 70 offices, including 12 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with about 300 counterpart organizations in almost 100 countries, CII serves as a reference point for Indian industry and the international business community.
